

Identification of animals

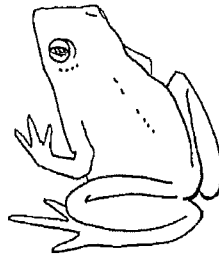

Match the creatures name to its description and picture.

I eat fruit, flowers, nuts, seeds, insects, spiders, snails, frogs, lizards and snakes. I come from a tiny area in Colombia, South America.

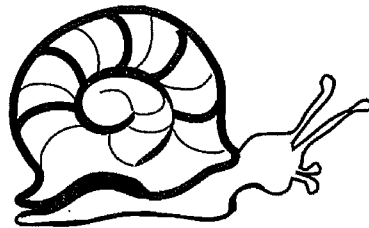

Giant African Land Snails

I eat mice, small birds and snakes. I come from Argentina.

Cotton Top Tamarin

I am an amphibian. I come from the island of Madagascar. There aren't many of me left there, and lots of other animals are endangered!

Tomato Frog

I eat vegetables and cuttlefish bone (to keep my shell healthy). I live in East Africa.

Horned Frog
